

Flake Ice Maker

Flake Ice Maker

❖ Flake Ice Maker LFIM-A1 Series ❖

Flake ice makers are durable, water and energy efficient and can be used for a variety of application. IT has advance user friendly technology and indicator system to indicator water and ice level Due to its slow-melting quality, flake ice is ideal for both the presentation and preservation of perishable food items. These flake ice makers rapidly produces ice flakes surrounding the product and cools it very fast.

Features

- ❖ Consist of Nickel-plated copper stir ice bucket
- ❖ Composed of 304/2B stainless steel body
- ❖ Energy and water efficient
- ❖ Indicator system to indicate ice & water level
- ❖ Overload protection, low noise level
- ❖ Water pipe is made up of food grade plastic
- ❖ Ambient temperature is 20°C and Inlet water temperature is 10°C
- ❖ High efficiency CFC free compressor

Applications

Flake ice is used to display and maintain freshness of meat, seafood, blended cocktails, salad and also has therapeutic use in health care facilities.

Specifications

Model	LFIM-A10	LFIM-A11
Capacity	20kgs/24hrs	25kgs/24hrs
Storage Bin Capacity	5kgs	7kgs
Dimension (W×D×H)	330×503×607mm	300×493×547mm
Water Temperature	2-28°C	
Ambient Temperature	10-35°C	
Power Consumption	265W	265W
Standard Voltage	AC220V/50Hz	
Weight	38kgs	36kgs
Exterior Finish	304/2B Stainless steel	
Load Capacity	180PCS/20'	
Compressor Brand	Zanussi	
Refrigeration System	R134A	

❖ Flake Ice Maker LFIM-A2 Series ❖

Flake ice makers are constructed using stainless steel and rigid plastic cabinets and other high-quality components. These flake ice makers are durable, energy efficient and can be used for a variety of application. These flake ice makers have user friendly electronic controls and indicator system to indicate the water and ice level. Excellent quality, reliable and long lasting flake ice makers rapidly produces ice flakes that compactly surround the product and cools it very fast.

Features

- ❖ Sleek design with stylish look
- ❖ Ice and water level indicator
- ❖ Ice shape is steady and similar with high transparency
- ❖ User-friendly electronic controls
- ❖ Overload protection
- ❖ Consume less energy
- ❖ Equipped with highly efficient CFC free compressor
- ❖ Testing conditions: Ambient temperature 20°C, Inlet water temperature 10°C

Applications

Flake ice increases the shelf life of sea food, fruits and vegetables while maintaining their texture. They are also used for transport of perishable food and in research sector for storing samples.

Specifications

Model	LFIM-A20	LFIM-A21	LFIM-A22
Capacity	40kgs/24hrs	50kgs/24hrs	85kgs/24hrs
Storage Bin Capacity	10kgs		14kgs
Dimension (W×D×H)	398×542×732mm		548×610×859mm
Water Temperature	2-28°C		
Ambient Temperature	10-35°C		
Power Consumption	465W		735W
Standard Voltage	AC220V/50Hz		
Weight	45kgs		60kgs
Exterior Finish	304/2B Stainless steel		
Load Capacity	135PCS/20'	279PCS/40HC	54PCS/20'
Compressor Brand	Zanussi		
Refrigeration System	R134a/130g	R134A/130g	R134a/170g

Flake Ice Maker

❖ Flake Ice Maker LFIM-B1 Series ❖

Flake ice makers have stainless steel material robust construction and sleek and stylish design. These flake ice makers have user friendly electronic controls and indicator system to indicate the water and ice level. It produces Steady shape ice with high transparency. They are durable, energy efficient and can be used for a variety of applications. These flake ice maker rapidly produces ice flakes that compactly surround the product and cools it very fast.

Features

- ❖ Stainless steel robust construction
- ❖ User friendly technology
- ❖ Overload protection
- ❖ Produces ice with steady shape and high transparency
- ❖ Economical operation
- ❖ Fully automatic control
- ❖ Water & ice level indicator
- ❖ Ambient temperature 20°C, Inlet water temperature 10°C

Applications

These products are used in concrete mixing, food processing, aquatic products processing, marine fisheries, chemical industries, Laboratories etc.

Specifications

Model	LFIM-B10	LFIM-B11
Capacity	100kgs/24hrs	150kgs/24hrs
Storage Bin Capacity	20kgs	25kgs
Dimension (W×D×H)	610×670×900mm	555×670×1000mm
Water Temperature	2-28°C	
Ambient Temperature	10-35°C	
Power Consumption	580W	600W
Standard Voltage	AC220V/50Hz	
Weight	64kgs	78kgs
Exterior Finish	304/2B Stainless steel	
Load Capacity	54PCS/20' 114PCS/40HC	48PCS/20' 96PCS/40HC
Compressor Brand	Zanussi	
Refrigeration System	R134A/190g	R134A/230g

Flake Ice Maker

❖ Flake Ice Maker LFIM-B2 Series ❖

Flake Ice Makers comes in with sleek and stylish design. They are constructed with stainless steel and rigid plastic cabinets and other high-quality components. They comes with user friendly electronic controls and indicator system to indicate the water and ice level. It produces Steady shape ice with high transparency. They are durable, energy efficient and can be used for a variety of applications. These flake ice maker rapidly produces ice flakes that compactly surround the product and cools it very fast.

Features

- ❖ Constructed with stainless steel and rigid plastic cabinets and other high-quality components
- ❖ User-friendly electronic controls
- ❖ Ice and water level indicator
- ❖ Produces ice with steady shape and high transparency
- ❖ Fully automatic control
- ❖ Overload protection
- ❖ Energy and water efficient
- ❖ High efficiency CFC free compressor
- ❖ Testing conditions: Ambient temperature 20°C, Inlet water temperature 10°C

Applications

These flake ice makers are user friendly and are used in various industries like aquatic products processing, marine fisheries, laboratories, hotels, pharmaceutical industries etc.

Specifications

Model	LFIM-B20	LFIM-B21	LFIM-B22
Capacity	200kgs/24hrs	250kgs/24hrs	300kgs/24hrs
Storage Bin Capacity	60kgs		
Dimension (W×D×H)	740×670×1080mm		
Water Temperature	2-28 °C		
Ambient Temperature	10-35 °C		
Power Consumption	1350W		600 x 2W
Standard Voltage	AC220V/50Hz		
Weight	92kgs	93kgs	94kgs
Exterior Finish	304/2B Stainless steel		
Load Capacity	48PCS/20' 96PCS/40HC		48PCS/20'
Compressor Brand	Zanussi (2 compressors)		Zanussi
Refrigeration System	R134A/230g (2 systems)
