## Large Scale Freeze Dryer LLFD-A1 Series

Large scale production freeze dryers are specifically designed to meet the requirements of industries where large quantity or bulk samples needs to be freeze dried in single cycle. This LLFD-A1 series comes with condensing rate of 25kg, 40kg and 60kg per batch for 20L, 40L, 60L freeze dryers respectively. The pre freezing and drying process are completed on shelf with temperature accuracy of  $\pm 1^{\circ}\text{C}$ . Equipped with CFC-free refrigeration, vacuum drying with low noise compressor for safe and noiseless functioning. Its corrosion resistant body is configured strictly following ISO & CE standards.
